COMPANY OVERVIEW

Blue Peak Data Consulting LLC delivers data analytics, business intelligence, and reporting services to federal, state, and local government clients. We build the dashboards, data pipelines, and reporting systems agencies use to track spending, measure program performance, and make decisions. We run a senior-led delivery model: government clients get hands-on expertise without the overhead of a large firm, backed by certified specialist partners for GIS and geospatial work.

CORE COMPETENCIES

- ◆ **Power BI & Microsoft Fabric dashboards** — semantic modeling, DAX, OneLake / Lakehouse, scheduled refresh, VP- and program-level reporting
- ◆ **SQL & ETL data pipelines** — ingestion, transformation, and refresh against warehouse and cloud sources
- ◆ **Data modeling & warehouse optimization** — Redshift, Azure, Snowflake, Databricks; source-of-truth view design
- ◆ **Process & workflow automation** — Power Automate, Power Apps, and SharePoint approval routing and form automation
- ◆ **Program performance, KPI & budget reporting** — outcome dashboards plus budget, spend, and projection tracking on monthly and quarterly cycles
- ◆ **Governance, security & audit-readiness** — row-level security, governed refresh-safe models, audit-ready reporting
- ◆ **Data cleaning & integration** — across messy, delayed, or siloed source systems, including Salesforce / CRM
- ◆ **GIS & geospatial mapping** — through ESRI-certified partners

DIFFERENTIATORS

- ◆ **16+ years** of BI and data analytics experience leading the work directly
- ◆ **Federal grant program reporting** — built reporting for a \$30M federal initiative
- ◆ **Hub-and-spoke model** — low overhead, senior delivery, scalable through vetted partners
- ◆ **Fast build cycles** — AI-assisted development ships dashboards and workflows in days, not weeks
- ◆ **Plugs into your stack** — works inside existing Microsoft 365, Power Platform, and data infrastructure
